We need money for human needs,
not endless war!

Not Another War! No October Surprise!

MASS MARCH in NYC
Saturday SEPT 27 ■ 12 noon
Times Square ■ 42nd & Broadway

The Bush administration is using the election as a cover to increase its threats of war against Iran. It has quietly assembled the largest naval armada in one place since WW2--in the Persian Gulf with guns aimed at Iran.

- They have now deployed 18 NATO ships to the Black Sea and raised the threats against Russia, while opening a new front of bombing attacks in Pakistan.
- No troops have been withdrawn from disastrous wars in Iraq and Afghanistan.
- There are always billions of dollars for war and billions more to bailout the biggest banks, but no assistance for the 600,000 working people laid off this year, or the 2 million small homeowners being foreclosed in record numbers, or the more than 50 million people with out health care.
- Recruiters promise bonuses to sign up for the military but there is less and less money for college and one third of our students don't graduate from high school.

We NEED Jobs, Housing, Health Care and Schools!
NOT Endless Wars!

Iraq, Afghanistan, Iran: Who Pays? Who Profits?

■ Almost 4,200 U.S. soldiers have died in Iraq and 900 in Afghanistan. No one on the Board of Directors of Halliburton, AIG or Exxon has lost a daughter or son in these wars, because the troops are drawn from working class families and from communities of color. The Pentagon takes advantage of lack of educational and employment opportunities to target these communities for recruitment with false promises of college money and job training.

■ Many vets returning from Iraq and Afghanistan are suffering from physical and psychological injuries, only to find that Veterans Hospitals are being shut down, programs are being cut, and facilities are filthy, under-equipped, and understaffed, because budgets have been slashed to pay for war and corporate bailouts.

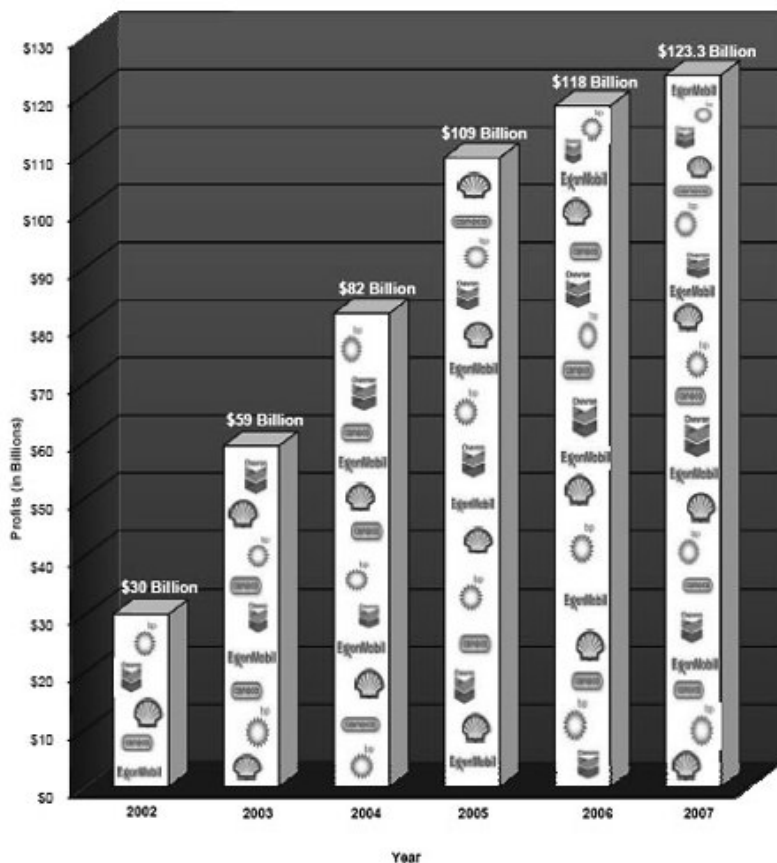

■ According to CostofWar.com, the Iraq War has cost more than \$550 billion. This money has been robbed from working people. We need funding for schools, job training, health care, rebuilding our infrastructure, and much more.

■ While oil companies are making record profits, the price of gas, heating oil, groceries, and other necessities are skyrocketing.

■ Meanwhile, the foreclosures and evictions crisis is growing. Washington is spending billions on war and on bailing out banks, but nothing for working people.

■ Especially during difficult economic times, Wall Street and the corporate media work overtime to divide us. They want us to blame the people of Iraq and Iran or immigrant workers for the crisis, instead of uniting against the corporations who profit while working people bleed. Now, more than ever, we need to stand in solidarity against racism, sexism, anti-lgbt bigotry, and any thing else they use to divide us.

Oil Companies Reap Record Profits During Bush Administration

Office of Speaker Nancy Pelosi, 2/5/08
